19 December 1955

Memorandum for: Roger W. Jones  
Assistant Director for  
Legislative Reference  
Bureau of the Budget

Subject: Proposed Legislation for CIA.

1. Attached hereto are six copies of proposed amendments to the Central Intelligence Agency Act of 1949, as amended, together with a sectional analysis of such amendments, which this Agency would like to propose at the forthcoming session of the 84th Congress.

2. Section 1 of this proposed legislation has not been submitted previously. It relates to certain problems which have been encountered in the field of procurement, and it is considered necessary for the reasons set forth in the attached sectional analysis.

3. Most of the remaining sections of the proposed legislation have been submitted previously on an informal basis to the Bureau of the Budget and the office of Presidential Adviser on Personnel Management. Apart from a few technical changes, the only sections which have not previously been submitted are: Section 3, dealing with the storage of personal effects; a part of Section 12, dealing with foreign and territorial post differentials (proposed as a new subsection (3) of Section 5(b) of the basic legislation); and Section 13, dealing with tax exemptions on allowances. The reasons why these and other amendments are considered essential are set forth in the attached sectional analysis.

4. It is strongly recommended that this legislation be approved for submission to the Congress. Representatives of this Agency will be happy to explain in further detail any of the proposed amendments at your convenience.
